B.Sc. Computer Science · Ramat Gan Academic College · GPA: 93 · 3rd Year

PROFILE

Infrastructure-minded CS student with 7+ years of hands-on technical experience — from IDF network management to cloud monitoring at Skai as a NOC Engineer. I bring a rare combination of production-environment ownership and academic drive (GPA: 93) to everything I build. Now looking to channel that foundation into a **student developer or DevOps role** where I can grow fast and contribute from day one.

TECHNICAL SKILLS

Languages	Python · Java · C++
DevOps	CI/CD · Jenkins · GitHub · Linux · Windows · macOS
Networking	IP · DNS · DHCP · VPN · Active Directory · Incident Management

EXPERIENCE

NOC Engineer · Skai — *2024 – Present*

- Monitored and maintained large-scale cloud infrastructure; resolved 99.2% of incidents.
- Supported CI/CD pipelines — monitored Jenkins jobs, managed server configs via GitHub.
- Updated runbooks and collaborated across teams on deployments and upgrades.

IT Technical Support Specialist · Passportcard Labs — *2021 – 2023*

- Tier 1 & 2 support for global clients (Hebrew & English); led the Infra Squad for R&D.
- Developed training materials and onboarded new technical staff.

Help Desk / Win 10 Project · Super-Pharm · Mizrahi Tefahot Bank — *2019 – 2020*

- Desktop support for 1,000+ users; implemented full store tech setup at Harish branch.

Network Manager · IDF — Military Service — *2017 – 2019*

- Managed network operations, Active Directory, and technical troubleshooting for the unit.

EDUCATION

B.Sc. Computer Science — *2023 – Present*
Ramat Gan Academic College · 3rd Year · GPA: 93

System Administrator · Network Administrator Course — *2017 – 2019*
IDF (Army)
